

To Sustain Everyday Life: UMCOR Kits Are another Way to Give

UMCOR Supply Kits help to care for the most vulnerable people during times of crisis. They also help to sustain everyday life by providing basic necessities to people who lack ready access to essential supplies. These kits provide vital support for the work UMCOR does throughout the world. By donating kit supplies or financial gifts to purchase the supplies, you make a direct, tangible difference in sustaining people's lives.

Health Kits... Health kits provide basic necessities to people who have been forced to leave their homes because of human conflict or natural disaster. Health kits are also used as learning tools in personal hygiene, literacy, nutrition and cooking classes. When people gain the knowledge and materials to maintain personal hygiene, their overall health improves.
